

DAVID GALLEGO GALVEZ

david.gallego.galvez@gmail.com | +34930450883| Barcelona, Spain | Website: dgallego.dev

SUMMARY

.NET Developer with 6+ years of experience designing and building scalable APIs and cloud solutions. Strong background in C# (.NET 6+), Azure (Functions, Service Bus, AKS), and containerized applications with Docker/Kubernetes. Proven expertise in microservices architectures, CI/CD pipelines, and secure REST API development. Passionate about innovation, Agile teamwork, and delivering business-critical integrations in cloud environments. Fluent in English and Spanish.

PROFESSIONAL EXPERIENCE

Software Developer, Prodware

Oct 2025 - Present

- Led the modernization of legacy .NET Framework 4 applications to .NET 8, improving code quality, deployment reliability and future scalability.
- Designed and implemented custom Dynamics 365 extensions, including plugins, workflows, JavaScript customizations, custom APIs and integrations.
- Built a full WPF/.NET voting management system from scratch, covering user access, voting sessions, validation rules and operational reporting.
- Developed backend APIs and integration services connecting Dynamics 365, SQL Server and third-party platforms.
- Introduced AI agents and automation tools to streamline internal workflows, documentation and repetitive operational tasks.
- Participated in Agile delivery, working closely with functional consultants, clients and technical teams to deliver business-critical CRM solutions.

Software Developer, Flexible

Sep 2022 - Oct 2025

- Designed and maintained .NET Core REST APIs and microservices, increasing system reliability by 40% and reducing response times by 25%.
- Developed a password reset app with Angular frontend and .NET Core backend in Azure, reducing IT support tickets by 50%.
- Built and maintained CI/CD pipelines with Azure DevOps and automated deployments using Docker and Kubernetes (AKS).
- Integrated asynchronous messaging with Azure Service Bus, ensuring scalable and resilient communication.
- Applied best practices (SOLID, Clean Code, code reviews) in Agile teams.

Software Developer, Freelance

Feb 2022 - Sep 2022

- Delivered 10+ custom APIs in .NET Core, integrating third-party services with REST and SOAP.
- Designed cloud-native solutions using Azure Functions and App Services.
- Implemented event-driven architectures and automated deployments with Docker containers.
- Created full documentation and automated testing to ensure long-term maintainability.

Software Developer, Epos

Nov 2020 - Feb 2022

- Developed 8+ C#/.NET plugins and REST APIs for Dynamics 365 and Azure, boosting CRM adoption by 25%.
- Automated data flows using SQL Server and Azure Data Factory, reducing manual work by 35%.
- Migrated legacy services to Docker/Kubernetes, improving scalability and deployment consistency.
- Collaborated on Agile projects, focusing on error resolution, testing, and technical quality assurance.

SKILLS

C# (.NET 6+, .NET Core, .NET Framework), REST APIs, Azure (Functions, App Service, Service Bus, AKS, Data Factory, Storage), Microservices, Docker, Kubernetes, CI/CD (Azure DevOps, GitLab, Jenkins), Git, SQL Server, PostgreSQL, MongoDB, Event-driven architecture, Angular, Testing (xUnit, Integration), Design Patterns (DDD, MVC, Hexagonal), SOLID Principles, Clean Code, Agile (Scrum/Kanban), Fluent English & Spanish

EDUCATION

Computer Engineer

Universidad Politecnica de Cataluña

2022 - Present

DAM (Advanced technician grade)

EDUCEM - Granollers
Graduated with honors

2019 - 2021

ADDITIONAL INFORMATION

- **Languages:** Spanish, English, Catalan (fluent)
